RE: Project Walk-Thru - 2019 Asphalt Paving Project for Park Avenue

Dear Property Owner/Resident:

The Village of Little Chute has awarded the 2019 Asphalt Paving Project to MCC, Inc. of Appleton, Wisconsin. There will also be other subcontractors working at various times during the project.

Construction is expected to start in early July. MCC, Inc. will distribute "Start of Construction" letters to your door prior to beginning work. The Village will also be holding an onsite meeting as listed below to address any remaining concerns that you may have. Staff will meet with residents starting at the intersection of Park Ave. and Wilson St. and proceed east to listen to your comments and answer any remaining questions that you may have as we walk the length of the project. Village staff will also have a set of the Construction Plans to illustrate the work to be completed.

The Informational Walk-Thru Meeting is scheduled as follows:

Date: Wednesday, June 26<sup>th</sup>, 2019  
Time: 5:30 p.m. – 6:30 p.m.  
Location: Intersection of Park Ave. and Wilson St.

Reconstruction of a street is inconvenient at times and there may be occasional delays. At the end of each construction day, access to driveways and properties should be restored when possible. Please note that project driveway access will be lost at various times for constructing the roadway. Village staff and the Contractor will be in contact prior to this work to allow for additional coordination with residents and property owners.

Residents are encouraged to attend the on-site meeting, to address any questions or concerns. If you are unable to attend or if you have any questions, please do not hesitate to contact the Engineering Department at (920) 423-3865. Thank you in advance for your understanding and cooperation throughout the duration of the project.

Christopher L. Murawski, P.E.
