July 30, 2020

Advance Notice – Detour Route for Moasis Drive – 2020 Water Main Replacement Project

Dear Property Owner/Resident:

On Monday, August 10th, 2020 the Village of Little Chute will begin reconstruction of the water main and replacement of effected concrete pavement. Dorner Inc. was selected as the General Contractor and will be installing the new water main. Vinton Construction Co. will be the sub-contractor in charge of the concrete pavement replacement. During construction the Village is allowing Moasis Drive to be closed on a block by block basis for the safety of those trying to pass through the construction zone, as well as the crews working in a confined area.

The Contractor will be setting up a detour which will route truck traffic as follows:

- South on Freedom Road (CTH "N") to E. North Avenue (CTN "OO")
- East on E. North Avenue (CTN "OO") to Buchanan Street
- North on Buchanan Street to destination

We have asked that the contractors do not use Evergreen Drive as an alternate route for ingress or egress to the construction project. Evergreen Drive is not a truck route and is posted accordingly, we have already received questions/concerns from residents on this issue. We would ask that business owners communicate with your drivers, and your suppliers so that they are using the posted detour as well.

As scheduling and planning continues, every effort will be made to communicate those updates. You can find this information on The Village website under Road Projects, as well as our Facebook page, construction updates will be posted weekly to those locations. If you have any questions, comments, or concerns that are not covered in those updates, please do not hesitate to contact the Engineering Department at (920) 423-3865.

Sincerely,

Rob Olkiewicz
