

**NOTICE
VILLAGE OF LITTLE CHUTE RESIDENTS**

**PROPOSED POLK STREET STORM WATER POND PROJECT
PUBLIC INFORMATION MEETING
Wednesday, February 23, 2011- 6:00 p.m.
Village of Little Chute Village Hall Community Room**

The Village of Little Chute Public Works Department is proposing to construct a wet storm water treatment pond at the West dead end of Polk Street between E. Lincoln Avenue and Charles Street. Construction of the pond will be financed by Federal and State grants and the Village's storm water utility. No property assessments are planned to be levied for this project. The project is being proposed to meet the mandated Federal and State storm water treatment requirements that the Village is obligated to comply with.

The public is invited to attend this public information meeting to hear and obtain information and facts about this modified project proposal and to provide input to the Village that they would like the Village to consider in regard to this proposal.
