Action on Rosehill Road Street Width, Bike Lanes, Trail, and Parking Issues between Main St. and County Highway OO

C. Kell stated that staff provided Board members with the cost estimates of the trail options and of constructing the road as it currently is at 41 feet with parking on one side of the street and bike lanes on both sides of the street. C. Kell stated that Mr. Coenen and Fox Valley Tool and Dye are in support of the wider street. Trustee Van Deurzen questioned the \$6,000 dollar cost to extend the railroad crossing.

R. Van Gheem stated that if the street is made wider than the railroad crossing would also have to be wider, because of the alignment of the street. Lori Verhagen, 226 Paradise Dr., questioned if there would be bike lanes on both sides of the road but parking on only one side of the road and she went on to question why Rosehill Rd. reconstruction was different than the Washington Street project. C. Kell stated that it is because of the parking that is being lost on Main Street and the Rosehill Bar owner does not have adequate on-site parking to make up for the lost parking and they will also be losing some of their on-site parking due to reconstruction of Main Street. Sara Eslinger, 1005 Washington St., commented that the Rosehill Rd. reconstruction should be the same as Washington St. and not allow parking at all but she does agree that parking should be allowed on one side but then Washington St. should be changed.

Trustee Elrick questioned if it was mandated that parking is not allowed where bike lanes are located.

R. Van Gheem stated that if it is a designated bike lane then cars cannot park on the street and the Board needs to decide if they want bike lanes or parking but the option is to not designate the bike lanes. C. Kell clarified that the parking would be located against the curb and the bike lanes would be between the travel lane and the parking. Chief Misselt stated that as he understands the State Statutes, operating a motor vehicle is not allowed in a bike lane, therefore parking is not allowed. Kurt Coenen, Rosehill Bar, commented that Rosehill Rd. is a truck route and he does not see the value of shrinking the road and he thinks constructing the road at 41 feet it gives the Village flexibility for the future for biking or parking and he would like to see parking allowed at least for the short term. Trustee Frassetto commented that she would be in favor of keeping Rosehill Rd. at 41 feet and allow parking on one side of the street.

Discussion continued. Sara Eslinger commented on the business located on Washington St. and she would

like to see the bike lanes taken out of one side and parking allowed and she further stated that she would like to see the Washington St. parking issue discussed further at a future meeting. President Fischer commented on keeping open the option of the bike path and Trustee Elrick stated he would not be in favor of the considering the bike path as the costs are nearly double of that of widening the street.

Moved by Trustee Frassetto, seconded by Trustee Van Deurzen to keep the width of Rosehill Road at 41 feet from Main St. to Hwy. OO and allow bike lanes on both sides of the street and parking on one side of the street.
