

Village of

# Little Chute

## AGENDA

### R EGULAR BOARD MEETING

PLACE: Little Chute Village Hall  
DATE: Wednesday, April 5, 2017  
TIME: 6:00 p.m.

#### REGULAR ORDER OF BUSINESS

- A. Invocation
- B. Pledge of Allegiance to the Flag
- C. Roll call of Trustees
- D. Roll call of Officers and Department Heads
- E. Public Appearance for Items Not on the Agenda
- F. Approval of Minutes  
*Minutes of the Committee of the Whole Meeting of March 22, 2017*
- G. Proclamations—Little Chute Chute-ing Stars and Little Chute High School Dance Team
- H. Presentation—Windmill Update
- I. Presentation—3D by Miron Construction on Municipal Services Building
- J. Discussion—Logo/Branding
- K. Department and Officers Progress Reports
- L. Operator License Approvals

Schroeder, Ali	Rosehill	Appleton
Deeg, Dana	Jacks or Better	Appleton
Louthain, Jacob	Moasis	Appleton
Selle, Ryan	Walgreens	Appleton
Hackel, Carissa	Hollanders	Little Chute
Hendricks, Caryssa	Ladder House	Little Chute
Niko, Libby	5 <sup>th</sup> Quarter	De Pere
Button, Laurie	MotoMart	Kimberly
Gadicke, Rachel	M's Bar	Little Chute
Banick, Jeremy	5 <sup>th</sup> Quarter	Kaukauna
Baker, Bengi	Ladder House	Little Chute
Royer, Jacob	Seth's Coffee	Appleton
- M. Action—Adopt Ordinance No. 1, Series 2017 An Ordinance Amending Chapter 34 Public Utilities Article III Sewer Use and Industrial Cost Recovery Rate Regulations, Division 1.

N. Resolutions:

- a) *Adopt Resolution No. 10, Series 2017 Proclaiming Arbor Day in the Village of Little Chute*
- b) *Adopt Resolution No. 11, Series 2017 A Resolution Terminating Tax Incremental District #1 and Authorizing the Village Treasurer to Distribute Excess Increment to the Overlaying Taxing Districts of Outagamie County, Fox Valley Technical College, Village of Little Chute and Little Chute School Districts*
- c) *Adopt Resolution No. 12, Series 2017 A Resolution Authorizing the Sale of Real Estate Located at 904 East Evergreen Drive to Austin Michael Landeau*

O. Disbursement List

P. Call for Unfinished Business

Q. Items for Future Agendas

R. Adjournment

Requests from persons with disabilities who need assistance to participate in this meeting or hearing should be made with as much advance notice as possible to the Clerk's Office at 108 West Main Street, (920) 423-3852, email: [Laurie@littlechutewi.org](mailto:Laurie@littlechutewi.org)

Prepared: March 31, 2017

## MINUTES OF THE COMMITTEE OF THE WHOLE MEETING MARCH 22, 2017

### Call to Order

President Vanden Berg called the Committee of the Whole meeting to order at 6:00 p.m.

### Roll Call

PRESENT: President Vanden Berg, Trustee Peterson, Trustee Peerenboom, Trustee Elrick,  
Trustee Van Lankvelt,

EXCUSED: Trustee Hietpas  
Trustee Smith

ALSO PRESENT: Adam Breest, Laurie Decker, Teri Matheny, Jim Moes  
Interested Citizens

### Public Appearance for Items not on the Agenda

None

### Approval of Minutes

Minutes of the Regular Board Meeting of March 15, 2017

*Moved by Trustee Van Lankvelt, seconded by Trustee Peterson to Approve the Minutes of the Regular Board Meeting of March 15, 2017*

Ayes 5, Nays 0 – Motion Carried

### Action—Adopt Resolution #9, Series 2017 Final Special Assessment Resolution for McKinley Ave., Grand Ave. and N. Wilson St.

*Moved by Trustee Elrick, seconded by Trustee Peterson to Adopt Resolution No. 9, Series 2017 Final Assessment Resolution for McKinley Ave, Grand Ave. and N. Wilson St*

Ayes 5, Nays 0 – Motion Carried

### Discussion—Municipal Tree Tapping

At the March 1, 2017, Regular Board meeting Megan Kerkhoff, of 516 Taylor Street requested the ability to tap municipal terrace trees for sap. The recommendation from the Forestry Department is that we continue to not allow the practice of tapping municipal owned terrace trees. The Forestry Department will investigate ways to facilitate a program where residents can partake in the tapping of maple trees during the maple syrup season. An option is to create a program at a designated area such as Heesakker Park to teach a limited number of interested residents on how to tap maple trees or partnering with another public or private entity.

### Discussion—Fox River Boardwalk

Director Breest stated the next phase of this project would be for the Village and City to perform geotechnical investigation, sampling of soils, an environment assessment, schematic designs, initial fundraising assistance, meetings with permitting agencies, and more contact with the Canadian National Railroad. In order to proceed with the next phase the department recommends that the Village chooses an alignment. After speaking with users, going out on the river, utilizing public meetings and working with the angle of the crossing Director Breest feels this alignment is the most economical while still taking into consideration the needs of the local residents. If the Village moved forward with alignment 1 in the next phase of the project there would still be an opportunity to alter the alignment before structural design, civil design, and permitting. The Board recommended Director Breest do more checking on County contributions, cost and timelines. The Board wants to see a strategic outline and time table of steps for each municipality involved in this process.

### Unfinished Business

None

**Items for Future Agendas**

None

**Adjournment**

*Moved by Trustee Elrick, seconded by Trustee Van Lankvelt to Adjourn the Committee of the Whole Meeting at 6:56 p.m.*

Ayes 5, Nays 0 – Motion Carried

**VILLAGE OF LITTLE CHUTE**

---

By: Michael R. Vanden Berg, Village President

---

Attest: Laurie Decker, Village Clerk

Village of Little Chute  
**REQUEST FOR VILLAGE BOARD CONSIDERATION**

**ITEM DESCRIPTION: Branding and Logo Development**

**PREPARED BY: James P. Fenlon, Administrator**

**REPORT DATE: March 31, 2017**

**ADMINISTRATOR'S REVIEW/COMMENTS: ( See Below )**

**EXPLANATION:** In order to better plan the effort to evaluate the current logo and potential changes, we wanted to layout a concise schedule of major milestones between now and June. The schedule below will allow the Village to appropriately address items previously discussed while ensuring we solicit feedback from stakeholders and residents. The ultimate goal is to have a decision on May 17th so that current staff efforts are not delayed (wayfinding or other promotional efforts).

At this week's Regular Board meeting, the consultant will present final design options for four potential logos (including the current version). These images could change over the course of time, but the goal was for the Board to be able to provide comment and feedback heading into the engagement portion of this effort.

Additionally, attached to this document is an overview of the visioning session that will be held in the Village Hall Board Room on Monday, April 17<sup>th</sup> at 7 PM, following the Village's April Plan Commission meeting. Upon completion of this meeting (4/5/2017), we will conduct press and social media outreach, along with direct appeals to the Little Chute Business Association, committees/commissions and other service groups.

In addition to the in-person option of the April 17<sup>th</sup> visioning session, we conduct an engagement effort by using a survey tool online to receive feedback. In addition these efforts will be publicized via press and social media efforts.

As presented a number of weeks ago, the final goal is to have a final decision on what direction the Village will head with regards to logo us. Once that decision is made between May 3<sup>rd</sup> and May 17<sup>th</sup>, we will have the opportunity to present and rollout any changes or updates to the logo. We will finalize the logo and launch the logo through pre-announcements in early June, with the evening of the first Village Market on June 15<sup>th</sup> on the Windmill Plaza. Other efforts will be made to publicize this effort over that time through creative outreach.

**RECOMMENDATION:** Provided for information.

**Village of Little Chute  
Logo Re-Design Project Plan**

**Group Visioning Activity 4/17/2017**

Post-it-note activity (series of questions about current perception and building the future); link ideas to logo project; announce how to officially vote (online survey)

*Facilitation:*

A brief introduction to the attendees on why we are meeting and what we are looking to accomplish.

Each attendee receives a pen and a series of blank post-it notes (three different colors) upon arrival. Questions are asked to the group as a whole and the participant writes their answer on the post-it note. Post-it note is then placed on a larger board with that question written on it.

*Question #1:* As someone close to the community, what is the ONE descriptive word that you would use to describe the Village of Little Chute as it stands today?

*Question #2:* What is the ONE descriptive word that you feel those outside of the community would use to describe the Village of Little Chute as it stands today?

*Question #3:* What is the ONE descriptive word that you would use to describe your hope for the future of the Village of Little Chute?

Following group activity, logo concepts are revealed, with explanation of concept. After the logo concept reveal, attendees are encouraged to stick around to view logo artwork more in depth, ask questions and see how the visuals correspond to the answers of the visioning session.

All participants will receive a handout with instructions on how to vote. Encouraged to share with others.

Outreach/feedback campaign commences.

Village of Little Chute

Department of Public Works

**REQUEST FOR BOARD'S CONSIDERATION**

**ITEM DESCRIPTION:** Ordinance amendments for Chapter 34 Public Utilities

**REPORT PREPARED BY:** Jeffrey F. Elrick

**REPORT DATE:** April 5, 2017

**ADMINISTRATOR'S REVIEW/COMMENTS:**

No additional comments to this report

See additional comments attached

**EXPLANATION:** In 2016 the Village has notice a rise in ammonia-nitrogen in the billing from Heart of the Valley Metropolitan Sewerage District to the extent that the cost to treat ammonia equals or is greater than treating any other parameters that the Village charges commercial customers who test their wastewater quarterly. The cost for ammonia-nitrogen that we are billed from HOVMSD is \$1.625 per unit. January bill is 13,676.91 lbs x \$1.625 = \$22,224.98

The ordinance amendments will include ammonia-nitrogen into the charges for category B users (see attachment).

**RECOMMENDATION:** Discuss and approve ordinance amendments

## VILLAGE OF LITTLE CHUTE

### ORDINANCE NO. 1, SERIES OF 2017

**AN ORDINANCE AMENDING CHAPTER 34 PUBLIC UTILITIES ARTICLE III SEWER USE AND INDUSTRIAL COST RECOVERY RATE REGULATIONS, DIVISION 1. GENERALLY, SEC 34-129. DEFINITIONS, DIVISION 5. AMOUNT OF USER CHARGES, SEC 34-252. CATEGORY A USERS, SEC. 34-253 CATEGORY B USERS, DIVISION 6. AMOUNT OF INDUSTRIAL COST RECOVERY CHARGES, SEC 34-276. CATEGORY A USERS, SEC. 34-277. CATEGORY B USERS OF THE VILLAGE OF LITTLE CHUTE MUNICIPAL CODE**

**BE IT ORDAINED** by the Village Board of Trustees, Village of Little Chute, Outagamie County, Wisconsin as follows:

Section 1. Chapter 34 Public Utilities, Article III Sewer Use and Industrial Cost Recover Rate Regulations, Division 6 Amount of Industrial Cost Recovery Charges Village of Little Chute, be amended to read as follows on attached document:

#### **Sec. 34-129. - Definitions.**

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

*Ammonia-nitrogen* is a measure for the amount of ammonia, a toxic pollutant often found in landfill leachate and in waste products, such as sewage, liquid manure and other liquid organic waste products.

*Biochemical oxygen demand (BOD)* means the quantity of oxygen utilized in the biochemical oxidation of organic matter in five days at 20 degrees Celsius, expressed as milligrams per liter (mg/l). Quantitative determination of BOD shall be made in accordance with procedures set forth in standard methods.

*Building drain* means that part of the lowest horizontal piping of a drainage system which received the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning five feet (1.5 meters) outside the inner face of the building wall.

*Building sewer* means the extension from the building drain to the public sewer or other place of disposal, also called house connection.

*Category A* means those sanitary sewer users who discharge normal domestic wastewater with concentrations of:

- (1) Ammonia-nitrogen no greater than 35 mg/l
- (2) BOD no greater than 180 mg/l;
- (3) Suspended solids no greater than 250 mg/l; and
- (4) Phosphorus no greater than eight mg/l.

*Category B* means those sanitary sewer users who discharge wastewater with concentrations of:

(1) Ammonia-nitrogen greater than 35 mg/l

(2) BOD ~~no~~ greater than 180 mg/l;

(3) Suspended solids ~~no~~ greater than 250 mg/l; and

(4) Phosphorus ~~no~~ greater than eight mg/l.

*Chlorine requirement* means the amount of chlorine, in mg/l, which must be added to sewage to produce a specified residual chlorine content in accordance with procedures set forth in standard methods.

*Combined sewer* means a sewer intended to receive both wastewater and stormwater or surface water.

*Compatible pollutants* means biochemical oxygen demand, suspended solids, phosphorus, pH, or fecal coliform bacteria, plus additional pollutants identified in the WPDES permit for the publicly owned wastewater treatment facility receiving the pollutants, if such works were designated to treat such additional pollutants and, in fact, does remove such pollutants to a substantial degree.

*District* or *HOVMSD* means the Heart of the Valley Metropolitan Sewerage District (HOVMSD), a multigovernmental regional district supervised and regulated by the Heart of the Valley Metropolitan Sewerage Commission.

*District approving authority* means the district engineer/manager, or other authorized representatives of the district.

*District wastewater collection facilities* or *district wastewater collection system* means the district interceptor sewer and the metering stations, both of which are owned, operated, and maintained by the HOVMSD.

*Easement* means an acquired legal right for the specified use of land owned by others.

*Floatable oil* means oil, fat, or grease in a physical state such that it will separate by gravity from wastewater by treatment in an approved pretreatment facility. Wastewater shall be considered free of floatable oil if it is properly pretreated and the wastewater does not interfere with the collection system.

*Garbage* means the residue from the preparation, cooking, and dispensing of food, and from the handling, storage, and sale of food products and produce.

*Grantee* means the district, for those projects in which the district receives federal funding. The grantee means the municipality for those projects in which the municipality receives federal funding.

*Ground garbage* means the residue from the preparation, cooking, and dispensing of food that has been shredded to such a degree that all particles will be carried freely in suspension under the flow conditions normally prevailing in public sewers with no particle greater than one-half inch in any dimension.

*Heart of the Valley Metropolitan Sewerage Commission* means the sovereign governing body of the Heart of the Valley Metropolitan Sewerage District.

*Incompatible pollutants* means wastewater with pollutants that will adversely affect or disrupt the quality of wastewater treatment if discharged to a wastewater treatment facility.

*Industrial cost recovery charge* means a charge collected by the village from users discharging industrial wastes for the recovery of the federal EPA grant amount allocable to the treatment of the user's wastewater volume and characteristics at design capacity of federal EPA-funded wastewater collection and treatment facilities, as further defined under article VII of this chapter.

*Industrial user*, for the purpose of industrial cost recovery, means:

- (1) Any nongovernmental, nonresidential user of publicly owned treatment works which discharge more than the equivalent of 25,000 gallons per day (gpd) of sanitary wastes and which is identified in the Standard Industrial Classification manual, 1972, Office of Management and Budget, as amended and supplemented under one of the following divisions:

Division A	Agriculture, forestry, fishing
Division B	Mining
Division D	Manufacturing
Division E	Transportation, communications, electric, gas and sanitary services
Division I	Services

- a. The grantee may exclude domestic wastes or discharges from sanitary conveniences.
  - b. After applying the sanitary waste exclusion, discharges in the divisions in this definition that have a volume exceeding 25,000 gpd or the weight of BOD or suspended solids equivalent to that weight found in 25,000 gpd of sanitary waste are considered industrial users.
- (2) A user which discharges any wastewater containing toxic pollutants or which has any other adverse effect on the treatment works.
- (3) A commercial user of an EPA-funded individual system.

*Industrial waste* means the wastewater from industrial process, trade, or business as distinct from sanitary sewage.

*Infiltration* means the water entering a sewer system and service connections from the ground, through such means as, but not limited to, defective pipes, pipe joints, connections, or manhole walls. The term "infiltration" does not include, and is distinguished from, inflow.

*Inflow* means the water discharged into a sewer system, including service connections, from such sources, as but not limited to, roof leaders, cellar, yard and area drains, foundation drains, cooling water discharges, drains from springs and swampy areas, manhole covers, cross-connections from storm sewers and combined sewers, catchbasins, storm sewers, surface run-off, street wash waters, or drainage. The term "inflow" does not include, and is distinguished from, infiltration.

*Inflow and infiltration (I/I)* means the total quantity of water from both infiltration and inflow without distinguishing the source.

*Major contributing industry* means an industry that:

- (1) Has a flow of 50,000 gallons or more per average workday;
- (2) Has a flow greater than five percent of the flow carried by the wastewater collection and treatment facilities receiving the waste;
- (3) Has a material in its discharge included on a list of toxic pollutants issued under Wis. Stats. § 283.21; or
- (4) Has a significant impact, either singularly or in combination with other contributing industries, on the wastewater treatment facility or the quality of its effluent.

*Municipal approving authority* means the village engineer or other authorized representatives of the village.

*Municipal wastewater collection facilities* or *municipal wastewater collection system* means the municipal sewer systems, structures, equipment, and processes required to collect and carry away wastewater. These municipal wastewater collection facilities, which are owned, operated, and maintained by the municipalities, extend to the influent point of the metering stations owned by the district.

*Municipality* means the Village of Little Chute.

*Natural outlet* means any outlet, including storm sewer outfalls and combined sewer outfalls into a watercourse, pond, ditch, lake, or other body of surface water or groundwater.

*Normal domestic strength wastewater* means wastewater with concentrations of BOD no greater than 180.

*Operation and maintenance costs* means and includes all costs associated with the operation and maintenance of the wastewater collection and treatment facilities, as well as the costs associated with periodic equipment replacement necessary for maintaining capacity and performance of wastewater collection and treatment.

*parts per million* means a weight-to-weight ratio; the parts per million value multiplied by the factor 8.34 shall be equivalent to pounds per million gallons of water.

*pH* means the reciprocal of the logarithm of the hydrogen concentration. The concentration is the weight of hydrogen-ions, in grams, per liter of solution. Neutral water, for example, has a pH value of seven and a hydrogen-ion concentration of  $10^{-7}$ .

*Public sewer* means any publicly owned sewer, storm drain, sanitary sewer, or combined sewer.

*Replacement costs* means expenditures for obtaining and installing equipment, accessories, or appurtenances which are necessary during the service life of the wastewater treatment facility to maintain the capacity and performance for which such facilities were designed and constructed.

*Sanitary sewage* means a combination of liquid and water-carried wastes discharged from toilets and/or sanitary plumbing facilities, together with such groundwater, surface water, and stormwater as may be present.

*Sanitary sewer* means a sewer that carries liquid and water-carried wastes from residences, commercial buildings, industrial plants, and institutions, together with minor quantities of groundwater, stormwater, and surface water that are not admitted intentionally.

*Segregated domestic wastes* means wastes from residential sources resulting from normal domestic activities which are measurable and set apart from industrial, trade, cooling water, and/or process discharge wastes.

*Sewage* means the spent water of a community. The preferred term is wastewater, as defined in this section.

*Sewer* means a pipe or conduit that carries wastewater or drainage water.

*Slug* means any discharge of water or wastewater which, in concentration of any given constituent or in quality of flow, exceeds for any period of duration longer than 15 minutes, more than five times the average 24-hour concentration of flows during normal operation and shall adversely affect the system and/or performance of the wastewater treatment work.

*Standard methods* means the examination and analytical procedures set forth in the most recent edition of Standard Methods for the Examination of Water, Sewage, and Industrial Wastes published jointly by the American Public Health Association, the American Water Works Association, and the Federation of Sewage and Industrial Wastes Association.

*Storm drain* or *storm sewer* means a drain or sewer for conveying water, groundwater, subsurface water, or unpolluted water from any source.

*Stormwater runoff* means that portion of the rainfall that is drained into the sewers.

*Suspended solids* means solids that either float on the surface of, or are in suspension in, water, wastewater, or other liquids, and that are removable by laboratory filtering as prescribed in Standard Methods for Examination of Water and Wastewater, and are referred to as nonfilterable residue.

*Unpolluted water* means water of quality equal to or better than the effluent criteria in effect, or water that would not cause violation of receiving water quality standards and would not be benefited by discharge to the sanitary sewers and wastewater treatment facilities provided.

*User charge* means a charge levied on users of the wastewater collection and treatment facilities for payment of operation and maintenance costs of said facilities.

*Wastewater* means the spent water of a community. The term "wastewater," from the standpoint of source, may be a combination of the liquid and water-carried wastes from residences, commercial buildings, industrial plants, and institutions, together with any groundwater, surface water, and stormwater that may be present.

*Wastewater collection facilities* or *wastewater collection system* means the district and municipal wastewater collection facilities.

*Wastewater treatment facility* means an arrangement of devices and structures for treating wastewater, industrial wastes, and sludge. Sometimes used synonymously with waste treatment.

*Watercourse* means a natural or artificial channel for the passage of water, either continuously or intermittently.

*Wisconsin Pollutant Discharge Elimination System (WPDES) Permit* means a document issued by the state department of natural resources which establishes effluent limitations and monitoring requirements for the district's wastewater treatment facility. The WPDES Permit No. WI-0031232-2 and modifications thereof pertain to the district's wastewater treatment facility.

(Code 2006, § 9-2-1; Ord. No. 12(Ser. of 2007), exh. A(9-2-1), 9-5-2007)

- **DIVISION 5. - AMOUNT OF USER CHARGES**
- **Sec. 34-252. - Category A users.**

Category A is defined as normal domestic wastewater having concentrations of biochemical oxygen demand (BOD) no greater than 180 mg/l, suspended solids no greater than 250 mg/l, **ammonia-nitrogen no greater than 35mg/l** and phosphorus no greater than eight mg/l. The user charge for Category A wastewater is the volume charge set by the village board.

(Code 2006, § 9-2-50; Ord. No. 2(Ser. of 1994), 1-19-1994; Ord. No. 12(Ser. of 2007), exh. A(9-2-50), 9-5-2007)

- **Sec. 34-253. - Category B users.**

(a)  
Category B is defined as wastewater having concentrations of BOD greater than 180 mg/l, suspended solids greater than 250 mg/l, **ammonia-nitrogen greater than 35 mg/l** and/or phosphorus greater than eight mg/l. The minimum Category B charge will be based on a concentration of not less than 180 mg/l for BOD, 250 mg/l for suspended solids, **35 mg/l for ammonia-nitrogen** and eight mg/l for phosphorus. The user charge for category B wastewater is the volume charge set by the village board plus surcharges for BOD, suspended solids, **ammonia-nitrogen** and phosphorus. The district determines annual user charges

for BOD, suspended solids, **ammonia-nitrogen** and phosphorus according to their rules and regulations, article V, Schedule of Charges and Fees, section 502, amount of user charge. The village will revise Category B user charges annually to reflect district changes.

(b)

The Category B user charges for volume, BOD, suspended solids, **ammonia-nitrogen** and phosphorus shall be computed in accordance with the formula presented below:

$$C = F + (V \times C_v) + 0.00834V [(B \times C_b) + (S \times C_s) + (A \times C_A) + (P \times C_p)]$$

Where:

C = Charge to sewer user for collection and treatment of wastewater

F = Fixed charge per billing period

B = Concentration of BOD in mg/l in the wastewater (concentration minus 180 mg/l equals B)

S = Concentration of suspended solids in mg/l in the wastewater (concentration minus 250 mg/l equals S)

**A = Concentration of ammonia-nitrogen in mg/l in the wastewater (concentration minus 35 mg/l equals A)**

P = Concentration of phosphorus in mg/l wastewater (concentration minus eight mg/l equals P)

V = Wastewater volume in 1,000 gallons for the billing period

C<sub>v</sub> = Cost per 1,000 gallons

C<sub>b</sub> = Cost per pound of BOD

C<sub>s</sub> = Cost per pound of suspended solids

**C<sub>A</sub> = Cost per pound of ammonia-nitrogen**

C<sub>p</sub> = Cost per pound of phosphorus

0.00834 = Conversion factor

(Code 2006, § 9-2-51; Ord. No. 2(Ser. of 1994), 1-19-1994; Ord. No. 6(Ser. of 1996), 3-20-1996; Ord. No. 12(Ser. of 2007), exh. A(9-2-51), 9-5-2007)

## **DIVISION 6. - AMOUNT OF INDUSTRIAL COST RECOVERY CHARGES**

### **Sec. 34-276. - Category A users.**

Category A is defined as normal domestic wastewater having concentrations of BOD no greater than 180 mg/l, suspended solids no greater than 250 mg/l, **ammonia-nitrogen no greater than 35mg/l** and phosphorus no greater than eight mg/l. The industrial cost recovery charge for Category A wastewater will be set by the village board. The charge shall be reviewed periodically and shall be such that they produce sufficient revenue.

(Ord. No. 12(Ser. of 2007), exh. A(9-2-60), 9-5-2007)

**Sec. 34-277. - Category B users.**

- (a) Category B is defined as wastewater having concentrations of BOD greater than 180 mg/l, suspended solids greater than 250 mg/l, **ammonia-nitrogen greater than 35 mg/l** and/or phosphorus greater than eight mg/l. The minimum Category B charge will be based on a concentration of not less than 180 mg/l for BOD, 250 mg/l for suspended solids, **not less than 35 mg/l for ammonia-nitrogen** and eight mg/l for phosphorus. The industrial cost recovery charge for Category B wastewater will be set by the village board. The charge shall be reviewed periodically and shall be such that they produce sufficient revenue.
- (b) The Category B industrial cost recovery charges for volume, BOD, suspended solids, **ammonia-nitrogen** and phosphorus shall be computed in accordance with the formula presented below:

$$R = (V \times R_v) + 0.00834V [B \times R_B] + (S \times R_S) + (A \times R_A) + (P \times R_P)]$$

Where:

R = Charge to sewer user for industrial cost recovery system

**A = Concentration of ammonia-nitrogen in mg/l in the wastewater (concentration minus 35 mg/l equals A)**

B = Concentration of BOD in mg/l in the wastewater (concentration minus 180 mg/l equals B)

S = Concentration of suspended solids in mg/l in the wastewater (concentration minus 250 mg/l equals S)

P = Concentration of phosphorus in mg/l in the wastewater (concentration minus eight mg/l equals P)

V = Wastewater volume in 1,000 gallons for the billing period

R<sub>v</sub> = Industrial cost recovery charge for 1,000 gallons of flow

R<sub>B</sub> = Industrial cost recovery charge per pound of BOD

R<sub>S</sub> = Industrial cost recovery charge per pound of suspended solids

**R<sub>A</sub> = Industrial cost recovery charge per pound of ammonia-nitrogen**

R<sub>P</sub> = Industrial cost recovery charge per pound of phosphorus

0.00834 = Conversion factor

(Ord. No. 12(Ser. of 2007), exh. A(9-2-61), 9-5-2007)

Section 2. Severability. If any provision of this Ordinance is invalid or unconstitutional, or if the application of this Ordinance to any person or circumstances is invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the above provisions or applications of this Ordinance which can be given effect without the invalid or unconstitutional provisions or its applications.

Section 3. Effective Date. This Ordinance shall become effective on the date of passage and publication of reference to ordinance change.

Date introduced: April 5, 2017

Date Approved and Adopted: April 5, 2017

**VILLAGE OF LITTLE CHUTE**  
**RESOLUTION NO. 10, SERIES OF 2017**

**RESOLUTION PROCLAIMING ARBOR DAY IN THE VILLAGE OF LITTLE CHUTE,  
OUTAGAMIE COUNTY, WISCONSIN**

WHEREAS, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for planting of trees, and this holiday, called Arbor Day, was established in 1872 in the State of Nebraska to recognize the importance of trees in our lives; and

WHEREAS, the first Arbor Day was a great success with the planting of more than a million trees and the idea spread to the neighboring states. Today, over 100 years later, Arbor Day is celebrated throughout the nation and the world; and

WHEREAS, trees in our Village increase property values, enhance the economic vitality of business areas, beautify our community, and clean our air; and

WHEREAS, J. Sterling Morton's dream of a greener tomorrow is still alive, thanks to the National Arbor Day Foundation's Tree City USA program that provides guidelines which help communities establish a comprehensive care program for their trees. Our cities are becoming greener, healthier places in which to live, and people everywhere are more aware of the need to plant trees; and

NOW, THEREFORE BE IT PROCLAIMED, that Michael R. Vanden Berg, Village President, and the Village Board designate Friday, April 28, 2017, to observe Arbor Day in the Village of Little Chute and urge all citizens to support the efforts to plant and protect our trees now and in the future.

Introduced, approved and adopted: April 5, 2017

Village of Little Chute  
**REQUEST FOR VILLAGE BOARD CONSIDERATION**

<b>ITEM DESCRIPTION: Tax Incremental District No. 1 Termination</b>
<b>PREPARED BY: Teri Matheny, Finance Director</b>
<b>REPORT DATE: April 5, 2017</b>
<b>ADMINISTRATOR'S REVIEW/COMMENTS:</b> No additional comments to this report <i>JRF</i> See additional comments attached
<b>EXPLANATION:</b>  The Village of Little Chute created Tax Incremental District ("TID") No. 1 by resolution on May 8, 1990. The last date that TID No. 1 is able to incur project costs was May 8, 2012 and the final dissolution date is May 8, 2017. The District was created under the provisions of Wisconsin Statue Section 66.1105. It was formed to assist with land acquisition, public parking lot improvements, senior housing, street scapes, and urban renewal in the Village downtown area. Tax Increment Districts allow a municipality to recover development and improvement costs in a designated area from the property taxes generated on the increased value of the property after the creation date of the District. The statutes allow the Village to collect tax increments until the net project cost has been fully recovered, or until twenty-seven years after the creation date, whichever occurs first (blighted district).  In addition, the Tax Incremental Base of the District as of January 1, 1990 was certified as \$7,727,650. As of January 1, 2016, TID #1 has a property value of \$14,803,000. Project costs total \$3,207,570 as of December 31, 2016 and are projected to be \$3,341,515 at the termination of TID #1. <b><i>The District will not have any fund equity at its termination.</i></b>  The three tax increment districts for the Village at December 31, 2016, currently account for 6.81% of the Village's total equalized value. Statutorily, no further TID's may be created once a municipality reaches 12%.  The return of the tax increment value of approximately \$7.1 million in terms of assessed value to the Village creates an additional \$159,040 in property taxes at the current tax rate in total. The Village portion in property taxes is \$51,900. In addition, the Levy Limit Calculation permits a onetime adjustment for the closure of a TID.  <b>RECOMMENDATION:</b> Adoption of the Resolution terminating Tax Increment District No. 1 for the Village of Little Chute. Village Clerk to provide resolution to the Department of Revenue following adoption by the Village Board.

**VILLAGE OF LITTLE CHUTE**

**RESOLUTION NO. 11, SERIES 2017**

**A RESOLUTION TERMINATING TAX INCREMENTAL DISTRICT #1 AND  
AUTHORIZING THE VILLAGE TREASURER TO DISTIBUTE EXCESS INCREMENT TO  
THE OVERLYING TAXING DISTRICTS OF OUTAGAMIE COUNTY, FOX VALLEY  
TECHNICAL COLLEGE, VILLAGE OF LITTLE CHUTE AND LITTLE CHUTE SCHOOL  
DISTRICTS**

WHEREAS, the Village of Little Chute passed a creation resolution creating Tax Incremental District No. 1 on May 8, 1990, and adopted a project plan that year; and

WHEREAS, all TIF District No. 1 projects were completed in the prescribed allowed time;  
and

WHEREAS, the final tax incremental that is equal to the statutory life of the District has been collected as of the 2016 tax roll, payable 2017, to cover TIF District No. 1 project costs, and to escrow funds to cover the District's remaining outstanding debt;

NOW, THEREFORE, BE IT RESOLVED that the Village Board of Trustees does terminate TIF District No, 1; and

BE IT FURTHER RESOLVED, that the Village Clerk shall notify the Wisconsin Department of Revenue, within 60 days of this resolution, or prior to the deadline of May 15, 2017, whichever comes first, that the District has been terminated; and

BE IT FURTHER RESOLVED, that the Village Clerk shall sign the required Wisconsin Department of Revenue final accounting form (PE-223) agreeing on a date by the which the Village shall send final audited information to the Wisconsin Department of Revenue; and

BE IT FURTHER RESOLVED, that the Village Treasurer shall distribute any excess increment collected after providing for ongoing expenses of the District, to the affected taxing districts with proportionate shares to be determined by the final audit by the Village's auditors, KerberRose SC.

Introduced, approved and adopted: April 5, 2017
