Trustee Elrick questioned if the School District has been involved and Administrator Fenlon advised he was not aware at this time. Trustee Smith advised that with the construction going on it has become more of a problem. Director Breest did advise that once construction is complete the plan is to have the drop off in the parking lot so that will alleviate some of this problem. Trustee Peterson feels this will be an enforcement nightmare and the school should educate the parents along with putting up the signs. Trustee Van Lankvelt asked if there is anything else that the school can do to alleviate this problem. Trustee Peterson asked if anyone had thought of putting up barricades. At the suggestion of President Vanden Berg he advised that the Board will pass the Parking Ban but the School Board should be notified

REQUEST FOR VILLAGE BOARD CONSIDERATION

NOTE: The City of Kaukauna Common Council has been invited to this meeting for this presentation. There may be a quorum of the City Council present.

EXPLANATION: In the summer of 2017, the Village of Little Chute and City of Kaukauna elected to continue further investigation into the feasibility of a multi-modal pedestrian bridge that would connect the Village of Little Chute Heritage Parkway trail system to the future City of Kaukauna trail system. The Village and City hired GRAEF-USA, Inc. to perform this continued investigation. The investigation included borings in the river and at the landings, environmental investigation of the soils in the river and on land, further schematic designs, narrowed down cost estimates, and meetings with agencies such as Canadian National Railroad, Fox River Navigational Authority, WI DNR, Corp of Engineers, Heart of the Valley Sewage District, and the State Historical Society.

The design of the boardwalk has not changed drastically. The boardwalk is still projected as a steel girder bridge with composite decking. Lights are proposed to match the current lights being utilized on the Mill Street and Heesakker pedestrian bridges. The biggest difference in design is that we were able to rotate the boardwalk alignment slightly to the west due to coordination with Canadian National Railroad on their facilities and property. In our current plan, CNRR would remove approximately 250 feet of rail line and the City of Kaukauna would acquire that land in order to eliminate the timber boardwalk that was proposed on the original plan on that side of the river.

Locally, this boardwalk would link 2 miles of trail from Little Chute through Kaukauna along the Fox River. Regionally, this trail will be a crucial link in Outagamie's plan to create interconnected trails along the Fox River. The counties proposed trail system would consist of roughly 13.5 miles of a connected loop from Appleton to Kaukauna and back. I have also attached a map as to how this project would specifically impact the Heart of the Valley. We would create a 10.9 mile loop from Little Chute to Kaukauna, and back around to Kimberly.

In January of this year the City and Village applied for a grant with Outagamie County to help fund the proposed boardwalk. In March we were notified that we have received the maximum requested funding of \$600,000 for our project.

2019 is our target year for construction of this project. The next phase of this project is for the Village of Little Chute and the City of Kaukauna to continue to apply for grants and then begin a fundraising effort this fall. In spring of last year both the City and Village were presented with a plan from staff to reach a goal of 80% funding from grants and donations. The other 20% would be covered by the City and Village (10% each). Through the investigation that we have performed over the last half year, GRAEF has adjusted the estimates to reflect the railroad coordination, river and soil conditions, current construction costs, and the added site work. The new estimated project cost is \$3,277,876.

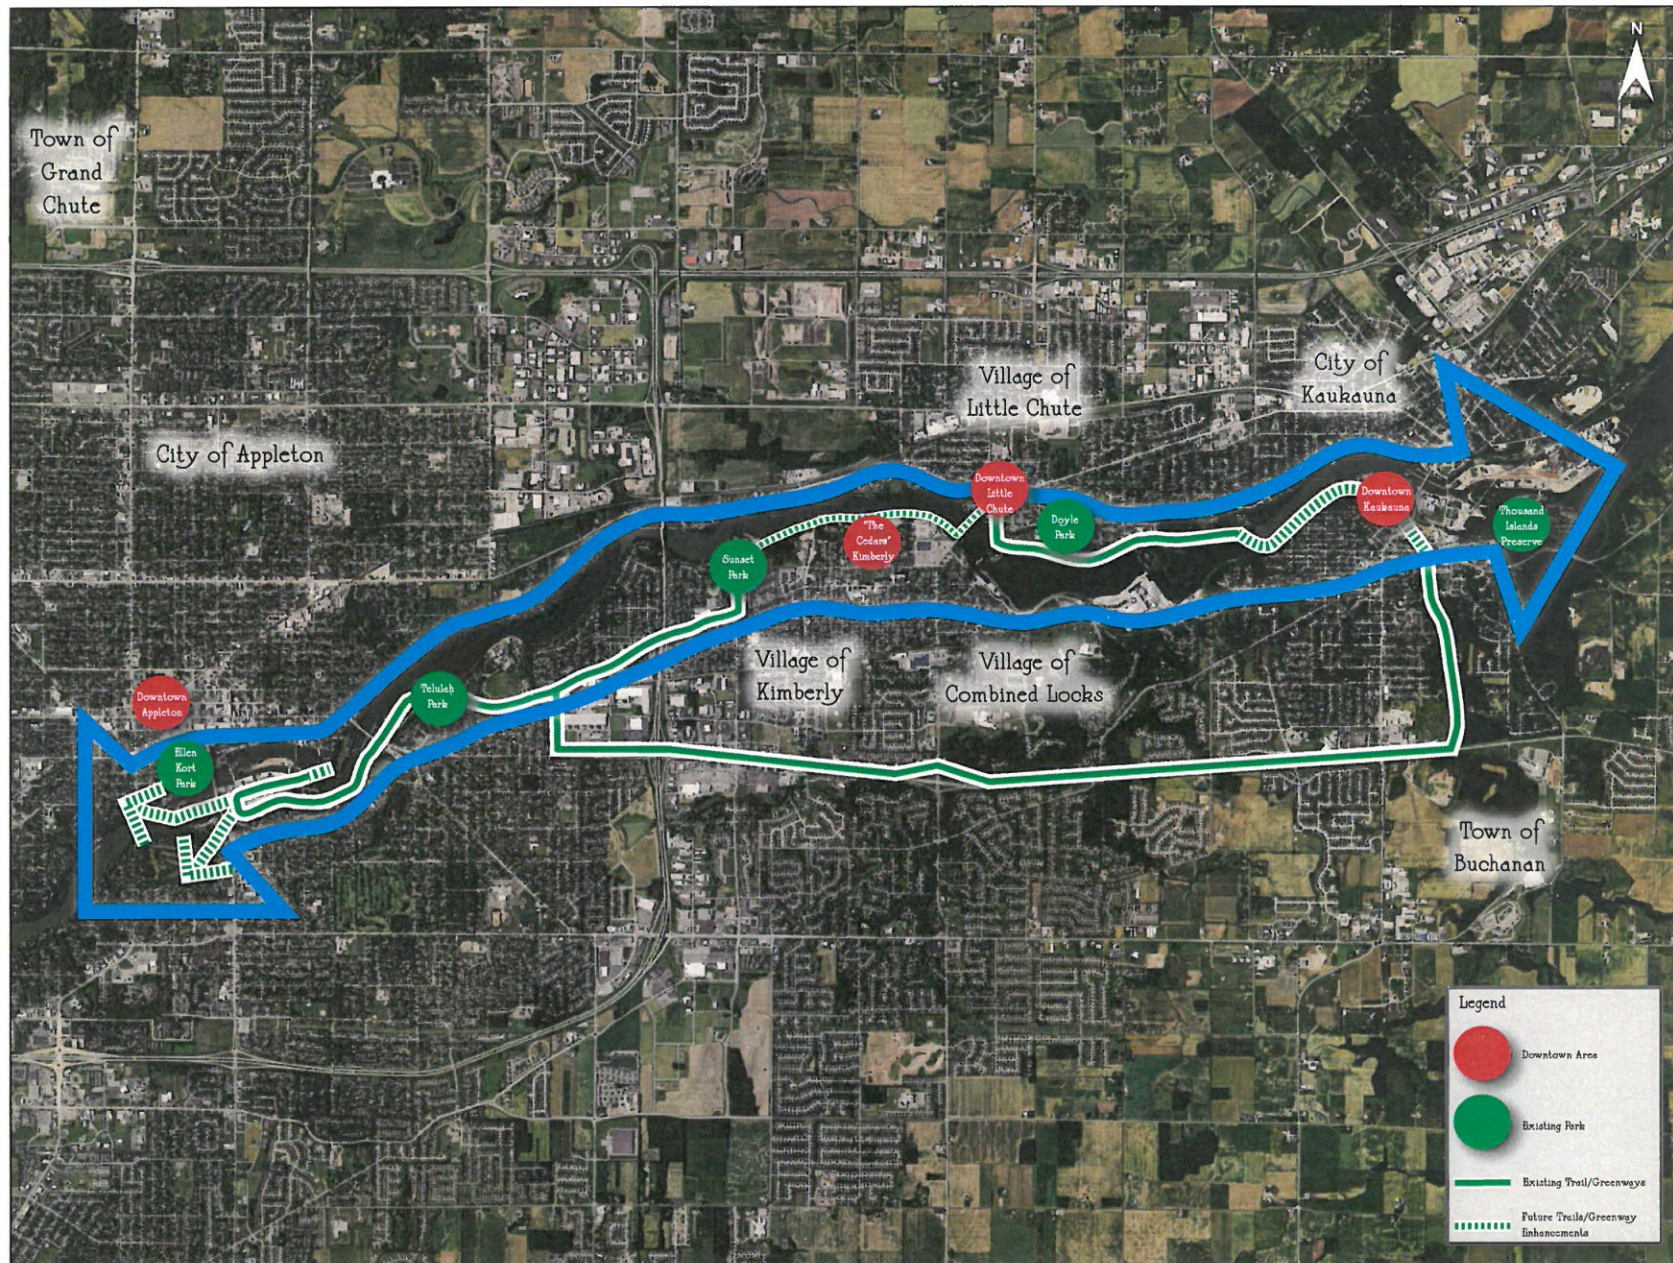

Our immediate next step is to apply for Wisconsin DNR Stewardship Funds. These applications are due by May 1 of this year. Applicants are notified of the results typically in September. This is an important step in our fundraising process as this grant could account for up to 50% of our project cost. Once this grant process is complete we will begin the process of fundraising for our gap. In the mean time we will also be submitting an application with the Fox Cities Visitors and Convention Bureau through their grant process.

CURRENT TOTAL PROJECT COST BREAKDOWN

• 10% Village of Little Chute	\$327,787.60
• 10% City of Kaukauna	\$327,787.60
• Outagamie County ATC Grant	\$600,000
• Regional Festival Participation	\$40,000
Funds Received to Date:	\$1,295,575.20
• DNR Stewardship (Up to 50%)	\$1,638,938
• FCVCB (Approved to Apply)	Funding Unknown
• Private Fundraising	\$343,362.80
TOTAL COST OF PROJECT:	\$3,277,876
