Each month end, Generally Accepted Accounting Principles require that we record an unrealized loss (or gain) to recognize market impacts.

Financing is up due to depreciation expense as asset base continues to grow

Prioritization of overall workload has less time spend on Pond Maintenance to date in addition to no dredging. Administration is up due to the 2021 audit results on overhead results in 33% from 30% for Stormwater Utility (driven by asset base).

Property, Auto and Workers Compensation premiums have been paid for the entire year

Reminder that capital assets are shown as expense in utilities until capitalized as part of year end audit preparation along with a few other annual processes

**MISSION:**

To operate a drainage system that provides safe, dependable surface drainage in each neighborhood that can be maintained easily and at a reasonable cost. To provide planning for new development that will not have a negative impact on existing neighborhoods and to have a flood protection system that will protect the residents. To improve the environment by improving the quality of storm water runoff, thereby working with the Northeast Wisconsin Storm Water Consortium, and remaining in compliance with EPA and the Wisconsin Department of Natural Resources.

To provide timely curbside pickup of yard waste and a convenient location where residents can drop off their yard waste seven days a week during daylight hours.

**SPECIFIC EXAMPLES:**

Bagged yard waste including garden debris, hedge and tree trimmings that are too small to bundle (less than 6"), leaves, grass clippings, and lawn raking; fall cleanup of loose leaves mixed with yard waste (no sticks); curbside pickup of tree trunks and large plant root balls.
